

# Valley of the Sun Clean Cities Coalition

Diesel Emission Reduction Technologies  
Voluntary, Incentives & Funding Programs

## CNG / LNG

- Tucson CNG Shuttle Van & Taxi Demonstration approved
- Sky Harbor Shuttle Bus Program expanded
- New Stations approved for both airports

# Federal Incentives

## Bio-fuels

Per gallon fuel tax reduction

- Biodiesel: 1¢ per % = 20¢ for B-20
- E-85: 51¢ 85/15 to <10% blend

Can be a great equalizer, & opens use as an oxygenate

# Clean School Bus USA

If you did not file, VSCCC will be happy to help with a back-up for any extensions or new programs

# Idle Reduction

- Truck stop facility programs may be available -- Tucson has one in the works with the help of ADEQ
- How about Phoenix?

# State Funds

SB 1522 provides funds for school buses:

- Purchase of particulate traps
- Purchase of new CNG buses

# Future Programs

VSCCC has formed an advisory panel with State Senator Allen & Rep. Boone -- ADEQ, Energy & Commerce are also represented

The goal -- effective emission reduction programs
