

Marine Vessels and Ports Workgroup
Projects and Information Sharing Focus Area

AGENDA

Thursday, August 26, 2004 2-4 p.m. PDT

1-866-299-3188 passcode: 415-947-4143#

Locations

CA: EPA R9 Office, 75 Hawthorne Street, San Francisco, 94105, Hawaii Room

WA: Puget Sound Clear Air Agency, 110 Union Street - Suite 500, Seattle, WA 98101, Conference Room

BC: Environment Canada, 401 Burrard St. (at Hastings St.), please see reception 2nd Floor, downtown Vancouver, B.C.

This is purpose of this meeting is to share information on transferable best practices and innovations and to refine project ideas with respect to timing, leadership, and priority. All partners interested in sharing or learning about successful efforts and innovative marine vessels and ports projects along the west are encouraged to participate.

2:00 Welcome

2:10 Report from the full Collaborative Interim Steering Committee
Dennis McLerran, Puget Sound Clean Air Agency

2:20 Exploring the Purpose of the Focus Area

2:50 Equipment Retrofits
Equipment Retrofits represent the largest most cohesive area of potential projects. The initial list of potential equipment includes ocean-going vessels, captive fleets (dredges, ferries, tugs), on-shore equipment, and possibly other transport modes in port (trucks and locomotives).

3:30 Other ideas and future directions for the Focus Area

4:00 Wrap up and Adjourn
